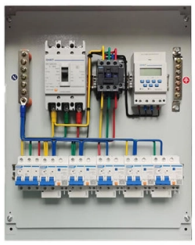
Dominic Intelligent Distribution Box Supplier



Overview

For almost 25 years, we have been active in the automation industry, supporting our customers with their installations across the EU and delivering the control cabinets, switch boxes, and panels...

Key Takeaways

Dominic Intelligent Distribution Boxes are industrial-grade power distribution systems designed for AC/DC applications with remote monitoring and control capabilities.

Overview

Dominic Intelligent Distribution Boxes are specialized electrical cabinets used in industrial and plant construction for power distribution, automation, and monitoring. These systems integrate AC and DC power distribution, fault detection, remote control, and communication with SCADA systems or distribution master stations, enabling real-time monitoring, fault isolation, and rapid recovery of power supply in non-fault areas (Gopower).

Manufacturer and Capabilities

The manufacturer of Dominic Intelligent Distribution Boxes is listed among multiple European and international suppliers, including SCArA-Tec and EKT Enerji, which have decades of experience in industrial electrical installations and power distribution systems. These companies serve OEMs, installers, and distributors worldwide, providing customized switchgear, low-voltage distribution, and automation solutions for industrial applications. Key FeaturesAC/DC Power Distribution: Supports both alternating and direct current systems for industrial environments.

Remote Monitoring and Control: Communicates with remote sub-stations and master stations to send operational data and receive control commands. Fault Detection and Isolation: Identifies faults, isolates affected areas, and ensures uninterrupted power supply in operational zones.

SCAD

A Integration: Compatible with SCADA systems for feeder remote terminal units (RTUs) and intelligent terminal equipment management. Industrial Applications: Suitable for factories, plants, and large-scale electrical installations requiring reliable and intelligent power management.

Market Presence

Dominic Intelligent Distribution Boxes are distributed internationally, with suppliers and manufacturers located in Europe, the Middle East, and other regions. They cater to industrial clients, electrical contractors, and system integrators, providing both standard and customized solutions for complex electrical networks.

Conclusion

Dominic Intelligent Distribution Boxes are highly reliable, intelligent power distribution systems designed for industrial applications, offering advanced monitoring, control, and fault management. They are manufactured by experienced companies with a strong focus on automation, switchgear, and electrical engineering, and are available through international distributors and OEM partners.
