Key Takeaways

Standard jumper wires typically range from $0. 10 to $1. 50 per wire depending on type, length, and connector style.

Overview

Jumper wires are used to connect terminals in distribution boxes, breadboards, or electronic circuits. They come in male-to-male, male-to-female, and female-to-female configurations, with lengths ranging from 2 inches to 18 inches and wire gauges from 8 AWG to 32 AWG. Pre-crimped leads and insulated wires are common for professional and DIY applications.

Typical Pricing

Single jumper wires: $0. 10–$0. 50 each for standard 22–28 AWG wires with basic connectors.

Assorted kits: $5–$20 for packs of 40–120 wires, often including multiple lengths and colors. Pre-crimped or specialized connectors: $0. 50–$1.

50 per wire depending on connector type and quality.

Suppliers

Mouser Electronics: Offers jumper wires and kits with datasheets and inventory for immediate purchase.

Digi

Key: Provides a wide selection of insulated, pre-crimped, and multi-conductor jumper wires suitable for distribution boxes. Amazon: Offers assorted jumper wire kits for electronics projects, which can be adapted for small distribution box applications.

Considerations

Wire gauge: Choose according to the current rating of your distribution box circuits. Length and connector type: Ensure compatibility with terminal spacing and connector style. Bulk purchasing: Kits often provide better value for multiple connections.

By checking supplier websites like Mouser or DigiKey, you can view real-time pricing and availability for the specific jumper wire type needed for your distribution boxes.
