Price range of metal cable trays in Egypt

Overview

Cable tray | MetalEgyptBy preventing cable tangling and allowing easy access for maintenance and upgrades, cable trays enhance safety and minimize the risk.

Key Takeaways

The price of metal cable trays in Egypt varies by type, material, size, and thickness, typically ranging from EGP 150 to EGP 600 per meter depending on specifications and accessories.

Price Factors

The cost of cable trays depends on several key factors: Type of tray: Perforated, solid-bottom, ladder, or ventilated trays have different prices due to manufacturing complexity and material usage. Material: Galvanized steel, aluminum, or stainless steel affect the price. Hot-dip galvanized trays are generally more expensive than cold-galvanized or aluminum options.

Dimensions: Length, width, and side height influence the cost. Standard lengths are usually 2–3 meters, with widths from 100 mm to 600 mm. Sheet thickness: Typically ranges from 0.

8 mm to 2 mm, with thicker sheets costing more. Accessories: Covers, connectors, angles, and mounting hardware add to the total cost. Installation method: Wall-mounted, ceiling-suspended, or floor-mounted systems may affect pricing due to labor and support requirements.

Order quantity: Bulk orders or large project contracts often receive discounts.
