African Positive Pressure Distribution Box Manufacturer

Overview

VERTICALBAG is a pioneer in Portugal in the integrated production of flexible bags for liquids and other fluids that are increasingly used in the Bag-In-Box packaging sector.

Key Takeaways

Leading manufacturers of positive pressure distribution boxes in Africa include Power Process Systems (PPS), Polybox, Allbro, and Golnix, all based in South Africa with continental supply capabilities. Key Manufacturers1. Power Process Systems (PPS) PPS specializes in electrical enclosures and distribution equipment, producing all components in-house at facilities in Gauteng and the Western Cape.

They manufacture fibreglass and polyethylene enclosures, fit and wire them according to specifications, and perform factory acceptance testing (FAT) before delivery.

PP

S serves electrical utilities, commercial complexes, and hospitals, and partners with brands like ABB, Schneider Electric, and Legrand. Their products comply with ISO 9001 and SABS standards, suitable for high-quality distribution applications across Africa. 2.

Polybox Based in Cape Town, Polybox designs and manufactures durable electrical enclosures from UV25 Linear Low-Density Polyethylene (LLDPE). Their enclosures are lightweight, corrosion-resistant, and range from IP43 to IP54, making them suitable for harsh African environments. Polybox offers custom solutions for complex wiring networks and ensures long-lasting performance for commercial and industrial projects.

3. Allbro Allbro manufactures non-metallic enclosures under brands like York, Okari, Enlec, Utilec, PSO1, and PSO2. They focus on local production to international standards, ensuring products withstand tough South African conditions.

Allbro supplies industrial, commercial, and residential sectors, providing enclosures suitable for positive pressure distribution applications. 4. Golnix Located in George, Golnix produces low-voltage polyethylene, fibreglass, and steel metering and distribution kiosks.

They have over 40 products and supply throughout South Africa, Namibia, and other African countries. Golnix has over 20 years of experience in manufacturing durable enclosures for electrical distribution, making them a reliable choice for PPD boxes.

Considerations for Selection

Material: Polyethylene, fibreglass, or steel depending on environmental exposure.

I

P Rating: Ensure the enclosure meets the required ingress protection (IP43–IP54).
Compliance: Look for ISO and SABS certifications for safety and quality.
Customization: Some manufacturers offer tailored solutions for complex wiring and distribution needs.

Regional Supply: Choose manufacturers with proven distribution across Africa for timely delivery and support. These manufacturers provide robust solutions for positive pressure distribution boxes, suitable for utility, commercial, and industrial applications across the African continent.
