BXM Explosion-proof Distribution Box USA

Overview

The BXM (D)58 series explosion-proof distribution box is designed for safe and reliable power and lighting distribution in hazardous areas. It is widely used in industries such as oil & gas, chemical plants, offshore platforms, and dust hazardous environments. Modular GRP construction fitted with a variety of optional components. Internal wiring to the terminal is complete. This explosion-proof electrical panel integrates both lighting distribution and power control, making it an ideal solution. ◆ The explosion-proof illumination distribution boxes is equiped with compound design: Combines flameproof (Ex d) and increased safety (Ex e) chambers for flexible protection. Can be used in Zone 1,2,21,22 Class I Division 2 Groups A, B, C, DMain switch and branch switch are operated with external rotary actuator.
