Bulk purchase of large-core OM4 optical fiber

Overview

Bulk Multimode OM4 Fiber | Fiber By the FootOur bulk multimode OM4 50/125 bulk unterminated fiber includes all jacket types, is in stock, cut to your custo.

Key Takeaways

OM4 multimode fiber (50/125 µm) is ideal for high-speed, high-bandwidth applications and is widely available in bulk from multiple suppliers with customizable options. Overview of OM4 FiberOM4 fiber is a 50-micron core multimode fiber designed for high-speed data transmission, supporting 10G, 40G, and 100G Ethernet over extended distances compared to OM3. It is optimized for data centers, enterprise networks, and high-performance computing, offering low attenuation, high bandwidth, and reliable connectivity for short- to medium-range optical links.

OM4 increases the available bandwidth from 2,500 MHz to 4,700 MHz, extending 10 Gigabit runs from 300 meters to 550 meters.

Bulk Options and Configurations

Bulk OM4 fiber is available in various configurations to suit different installation environments: Indoor, indoor ultra-thin micro armor, indoor interlocking armor, indoor/outdoor, and outdoor jacket types. Plenum-rated jackets for fire safety compliance in air-handling spaces. Armored cables for enhanced durability and crush resistance in industrial or high-traffic areas.

Distribution and breakout styles for flexible deployment in data centers or backbone networks. Lengths can be customized, with many suppliers offering cut-to-length options and fast shipping, often within 24 hours.

Suppliers for Bulk Purchase

Several suppliers provide bulk OM4 fiber with factory testing and certification: Warehouse Cables: Offers OM4 fiber in bulk, including custom-built trunk and multi-fiber breakout cables, ready for immediate deployment.

Lan

Shack: Provides OM4 fiber by the foot with multiple jacket types, suitable for indoor and outdoor installations, including micro-armored and interlocking armored options. L-com: Supplies bulk OM4 fiber in duplex, breakout, and distribution styles, with same-day shipping available.

Cable

Wholesale: Offers 1000 ft spools of 12-fiber OM4 indoor/outdoor cable with Corning ClearCurve® fibers, water-blocking Aramid yarn, and PVC jackets, compliant with TIA/EIA and IEC standards.

Considerations for Bulk Purchase

Installation environment: Choose indoor, outdoor, or armored cables based on exposure to physical stress or environmental conditions. Compliance: Ensure cables meet TIA/EIA, IEC, and UL standards for safety and performance. Bandwidth and distance requirements: OM4 is suitable for high-speed links up to 550 meters at 10G; longer distances may require singlemode fiber.

Customization: Many suppliers offer cut-to-length, pre-terminated, or custom assemblies to reduce field termination work. Bulk OM4 fiber is widely available and can be tailored to your network's specific needs, ensuring high-speed, reliable, and scalable connectivity for enterprise or data center applications.
