

Bundled pigtail multi-core

Overview

This multi-core fiber optic pigtail cable is ideal for high-speed communication scenarios in data centers, enterprise networks, and 5g base stations. It supports configurations ranging from 4 to 48 cores and features highly versatile lc/sc/fc interfaces. The advantages are neat wiring, stable signal. 25-year high-performance multi-core fiber optic pigtail bundles (4/8/12/24 cores) with lc/sc/fc connectors, specifically designed for home broadband upgrades and small data center cabling. Tensile abrasion resistant + modular structure, the measured transmission loss is less than 0. Suitable for. Fiber pigtail is a short optical fiber permanently attached to a source, detector, or other fiber optic device at one end and an optical connector at the other. Features: Applicable connector: FC, SC, ST, LC. Application: Bundle Multi-Fiber Pigtail Cord gives a space-efficient and economic solution. • Easy strip pigtails for on-site installation. • Utilizes high-quality raw materials for product manufacturing. They are designed, manufactured and tested according to protocol and performance dictated by the industrial standards, which will meet your most stringent mechanical and performance specifications. Application •. \$20 delivery August 6 - 18. Details Usually ships within 2 to 3 days. Help others learn more about this product by uploading a video! Would you like to tell us about a lower price?
