Cable tray cover plate installation price

Overview

Cable Tray Price ListCable Tray Price List - Free download as PDF File (.pdf) or read online for free. Cable Tray Accessories, Cable Tray Hangers & Support.

Key Takeaways

The cost of installing cable tray cover plates typically ranges from $10 to $50 per meter, depending on material, tray type, and installation complexity.

Material Costs

Cable tray cover plates are usually made from galvanized steel, stainless steel, aluminum, or plastic, with prices varying accordingly. Galvanized steel is the most common and cost-effective, while stainless steel and aluminum are more expensive due to corrosion resistance and durability requirements. Plastic covers are cheaper but suitable only for light-duty applications.

The price of the cover plate itself is often calculated per meter or per standard tray length (commonly 2. 4 meters),.

Installation Costs

Labor costs for installing cover plates depend on installation height, tray size, and complexity. Standard indoor installations are less expensive, while elevated or outdoor installations require additional labor, equipment, and safety measures, increasing costs. Skilled labor rates vary by region, and installation may include supports, brackets, and connectors, which add to the total expense.

Cost Estimation

Basic indoor installation with standard trays: $10–$20 per meterIndustrial or elevated installations: $25–$50 per meterAdditional factors: Coatings, fire resistance, and environmental protection can increase costs.

Tips for Cost Management

Choose modular or tool-free cover plates to reduce labor time. Consider bulk purchasing to lower material costs. Evaluate tray type (ladder, perforated, or solid) as it affects both cover plate size and installation effort.

In summary, the total cost of installing cable tray cover plates is influenced by material choice, tray dimensions, installation environment, and labor rates, with typical prices ranging from $10 to $50 per meter depending on these factors.
