Cable tray price includes support brackets

Overview

Cable trays Cable trays Cable tray, angle 90, T-piece, wall bracket, crossing, top customer service, top prices and fast delivery at Ekabel24.de Cable Tray.

Key Takeaways

Cable tray supports and brackets typically range from $5 to $50 per piece, depending on material, size, and supplier.

Price Overview

The cost of cable tray supports and brackets varies widely based on material, load capacity, and design. Common materials include galvanized steel, stainless steel, and plastic, with steel options generally being more expensive due to higher strength and durability. Light-duty brackets for small cable trays may start around $5–$10 each, while heavy-duty or specialized supports for industrial applications can cost $30–$50 or more per piece.

Factors Affecting Price

Material: Stainless steel and corrosion-resistant coatings increase cost. Plastic or halogen-free options are cheaper but suitable for lighter loads. Size and Load Rating: Larger brackets or supports designed for ladder trays or high cable loads are more expensive.

Supplier and Location: Prices vary by vendor and shipping location. Some suppliers, like Graybar, require ZIP code input for exact pricing. Quantity: Bulk orders often reduce per-unit cost, while single-piece purchases may be higher.

Where to BuyRS Components: Offers a wide range of cable tray supports, hangers, and brackets from brands like Legrand and Schneider Electric. Graybar: Provides cable tray fittings and supports, with pricing available after entering location details. Amazon: Sells smaller-scale or office-use wire tray supports, with prices varying by size and pack quantity.

Rexel: Supplies steel cable trays and accessories, including brackets, with pricing dependent on tray size and type.

Tips for Purchasing

Determine the type of cable tray (solid-bottom, ventilated, ladder) to select compatible supports. Check load ratings to ensure the bracket can safely support the intended cable weight. Consider environmental conditions: stainless steel for outdoor or corrosive environments, plastic for indoor or light-duty use.

Request quotes from multiple suppliers for large projects to compare costs and availability. By considering these factors, you can select the appropriate cable tray supports and brackets while managing costs effectively.
