Construction Distribution Box Manufacturers

Overview

Chapter 2, to profile the top manufacturers of Construction Distribution Box, with price, sales, revenue and global market share of Construction Distribution Box from 2019 to 2024.

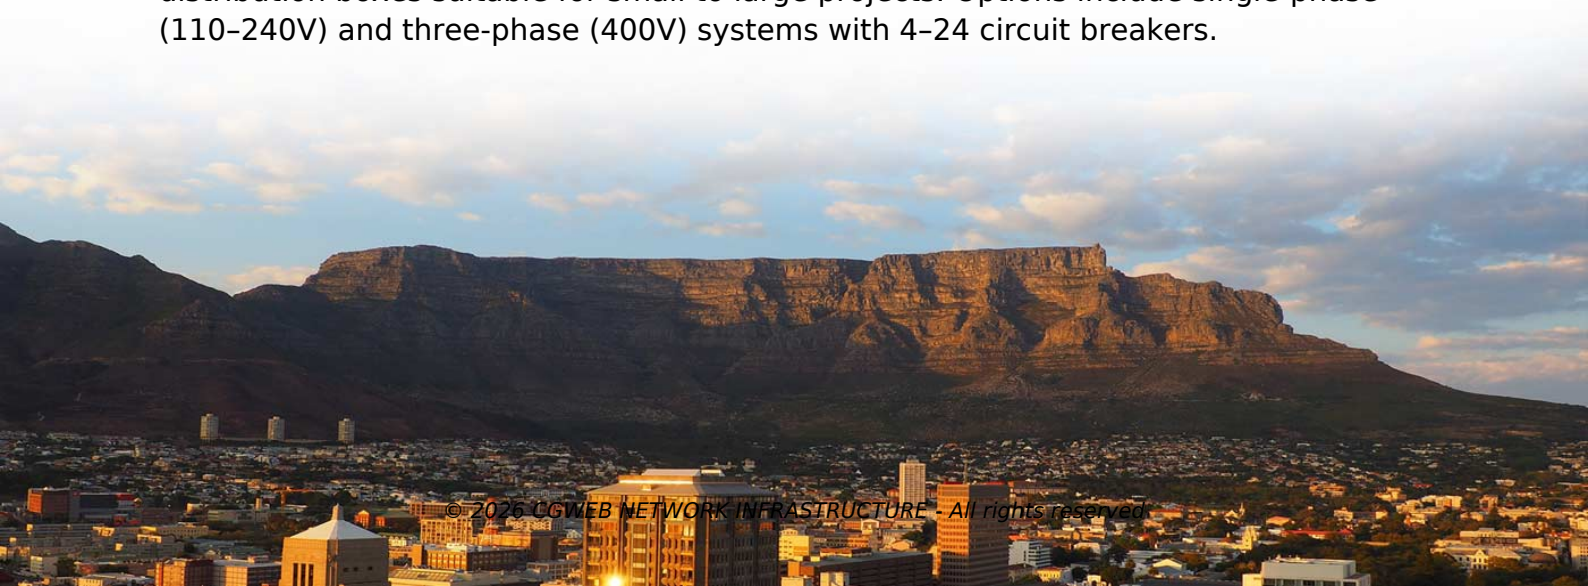

Key Takeaways

Leading manufacturers provide durable, IP65-rated construction site distribution boxes with customizable features for safe and reliable power distribution.

Key Manufacturers and Products

Vililong offers custom outdoor electrical distribution cabinets designed for construction sites. Their enclosures are made from 1. 5 mm carbon steel with RAL2004 orange powder coating for high visibility and corrosion resistance.

They feature rainproof tops, PU foamed sealing, and double doors, achieving IP65 protection for dust and water ingress, ensuring long-term performance in harsh outdoor conditions. Alibaba suppliers provide a wide range of construction site power distribution boxes suitable for small to large projects. Options include single-phase (110–240V) and three-phase (400V) systems with 4–24 circuit breakers.

These boxes are built from corrosion-resistant materials like stainless steel or aluminum, often meeting IP65 or higher standards, and are designed to withstand dust, moisture, mechanical impact, and frequent relocation. DirectIndustry-listed manufacturers such as BOSECKER, HLC, WALTHER WERKE, and DIGITAL ELECTRIC produce enclosures compliant with IEC 61439 and IEC 60364 standards. They offer robust sheet steel, thermoplastic, or fiberglass cabinets with IP65–IP67 ratings, impact resistance (IK08–IK10), and pre-wired or modular configurations suitable for both medium and high-power applications.

Made-in-

China suppliers like Yueqing Beigang Industrial Socket Distribution Box provide plug-in type enclosures with built-in circuit breakers, adaptable to indoor and outdoor environments, and equipped with power indicators and voltage/current displays for enhanced safety.

Z

Ciet manufactures ABS and PC-based waterproof distribution boxes with rubber seals, fire-resistant and UV-protected materials, and spacious interiors for large components.

Their LWH

A series and X-Treme Box™ models are portable, rugged, and suitable for outdoor construction use, with OEM customization and competitive pricing. Selection ConsiderationsIP Rating: Choose IP65 or higher for outdoor sites; IP67 for temporary immersion protection. Material: Carbon steel, stainless steel, aluminum, ABS, or PC for corrosion resistance and durability.

Circuit Capacity: Single-phase for small tools and lighting; three-phase for heavy-duty equipment. Safety Compliance: Ensure adherence to IEC, ATEX, or IECEx standards for electrical safety. Portability and Customization: Modular designs, pre-wired options, and reinforced construction improve flexibility and site adaptability.

These manufacturers provide reliable solutions for construction site power distribution, ensuring safety, durability, and compliance with industrial standards.
