FXMD type distribution box

Overview

Weatherproof Illumination (Power) Distribution Boxes are widely deployed across diverse harsh and outdoor scenarios.

Key Takeaways

The FXMD Series Distribution Box is a weatherproof, industrial-grade electrical distribution solution designed for outdoor and harsh environments.

Overview

The FXM

D Series Distribution Boxes are primarily used for wiring and piping in conduits, enabling the connection and distribution of electrical lines in industrial, chemical, and outdoor applications. They are engineered to withstand harsh environmental conditions, including exposure to oil, acids, alkalis, high temperatures, and aging.

Construction and Materials

Enclosure Material: High-quality cold-rolled bent and welded steel plate with a powder-coated surface, or optionally GRP or stainless steel. Fastening Components: Stainless steel for durability and corrosion resistance. Sealing Components: Silicone rubber, providing excellent resistance to environmental degradation.

Cable Entry: Equipped with composite sealing type cable glands; steel conduit wiring is available upon request. Joint Surface: Labyrinth path sealing structure ensures superior weatherproof performance. Protection and FeaturesIP Rating: Standard IP65, with optional IP66 for enhanced protection against dust and water ingress.

Optional Functions: Earth leakage protection and photoelectric control can be integrated based on user requirements. Multiple Entries: Various orientations for cable entry allow flexible installation. ApplicationsFXMD Series Distribution Boxes are suitable for: Industrial automationChemical plantsOutdoor lighting and power distributionHarsh environmental conditions requiring weatherproof and corrosion-resistant enclosures.

Summary

The FXM

D Series offers a robust, versatile, and weatherproof solution for electrical distribution in demanding environments. Its combination of durable materials, high IP protection, and optional safety features makes it ideal for both industrial and outdoor applications, ensuring reliable performance and long-term durability.
