Factory Inspection Report for Display Cabinet

Overview

Use this Final Factory Inspection (FFI) report template to complete final quality checks before shipment. Record part information and revisions, supplier cells, and product types; log faults with descriptions, number of occurrences, and attach location and fault photos. This involves setting inspection criteria, communicating effectively with the factory, selecting an inspection method, reviewing the inspection. The questions of this factory inspection report are based on the requirements given in Permanent Document CIG 021. Both documents, PD CIG 021 and PD CIG 024 shall be taken into account during inspection. Visual inspection will be carried out on all the. Third-party Inspection Reports should be Comprehensive, Accurate, Detailed, and Unbiased. For every product inspection service, our technical team meticulously prepares a detailed inspection checklist, tailored to your specifications and the general inspection standard ANSI/ASQC Z1.
