Fiber optic pigtail lc-fc dual fiber

Overview

Fiber Optic Pigtails for Sale FS fiber optic pigtails offer a fast way to make fiber optic communication devices in the field by fiber splicing, fully manu.

Key Takeaways

A dual fiber optic pigtail with LC and FC connectors is a short fiber cable with one end factory-terminated with LC and FC connectors and the other end bare for splicing, ideal for high-performance network terminations.

Overview

A fiber optic pigtail is a short length of optical fiber with a pre-terminated connector on one end and a bare fiber on the other, designed for fusion or mechanical splicing to incoming fiber cables in the field. The dual configuration means it contains two fibers, allowing simultaneous transmission of multiple signals or redundancy in network connections.

L

C connectors are compact and commonly used in high-density applications, while FC connectors feature a threaded ferrule for secure connections, often used in telecommunications and industrial environments.

Key Features

© 2026 CGWEB NETWORK INFRASTRUCTURE - All rights reserved

Fiber Type: Available in single-mode (OS1/OS2) or multi-mode (OM3/OM4) depending on network requirements. Connector Types: LC (small form factor) and FC (ferrule connector) for dual-core applications. Splicing Method: Compatible with fusion splicing for low-loss permanent connections or mechanical splicing for faster field deployment.

Bend Insensitivity: Many modern pigtails are bend-insensitive, reducing attenuation when bent or twisted, which is crucial for tight installations. Insertion Loss and Return Loss: High-quality pigtails offer low insertion loss and high return loss, ensuring stable signal transmission. Jacket Options: Available in Plenum (OFNP), Riser (OFNR), or LSZH for indoor or environmentally sensitive installations.

Applications

Data Centers: High-density patch panels and optical distribution frames (ODFs). Telecommunications: Connecting backbone fibers to active equipment.

FTT

H (Fiber to the Home): Terminating drop cables in residential or commercial buildings. Industrial Networks: Secure and stable connections in harsh environments using FC connectors.

Advantages

Custom Lengths: Can be ordered to match specific installation requirements. Ease of Installation: Factory-terminated connectors reduce field termination errors and improve reliability. Flexibility: Dual-core pigtails allow simultaneous transmission of multiple channels or redundancy.

Durability: High-precision zirconia ferrules ensure long-term stability and interchangeability. In summary, a dual LC-FC fiber optic pigtail is a versatile and reliable solution for connecting fiber optic networks, combining the compactness of LC connectors with the secure threading of FC connectors, suitable for both high-density and industrial applications while maintaining low signal loss and high performance.

Fiber Optic Pigtails for Sale

FS fiber optic pigtails offer a fast way to make fiber optic communication devices in the field by fiber splicing, fully manufactured and tested by industrial standards.

Fiber Optic Pigtail: Types, Splicing Guide, Specs & Price

A fiber optic pigtail is a short cable with one factory-polished connector and one bare fiber end. The connector is usually SC/APC for FTTH, LC/UPC for data centers, or FC/ST for industrial work.

Fiber Pigtails

CommScope engineers and manufactures a complete line of high quality fiber pigtails

Pigtail Assemblies for Patch and Splice Panels | AFL

AFL''s pigtail assemblies are available with LC, SC, FC, and ST connectors. These cables utilize 900 µm tight buffered construction for rapid installation. AFL''s

Fiber Optic Pigtail OM4 MultiMode SC | Fiber4u Technologies

Fiber Protection: Features dual-coated, bend-insensitive fibers, ideal for maintaining performance in tight bends and corners. Applications: Telecommunication Networks: Fiber4u pigtails offer reliable data

Fiber Optic Pigtails

Shop single-mode and multimode fiber pigtails at Amerifiber. LC, SC, ST, FC and MPO fiber optic pigtails available with UPC or APC ferrules. Request a quote.

Fiber Optic Products & Accessories Manufacturer/Supplier

UnitekFiber is a professional manufacturer of fiber Indoor/outdoor cables, MPO/MTP fiber patch cords,fiber optic patch panel. SFP optical transceiver, fiber optical connectivity and PLC splitter. Our

Optical fiber connector

An optical fiber connector is a device used to link optical fibers, facilitating the efficient transmission of light signals. An optical fiber connector enables quicker connection and disconnection than splicing.
