Key Takeaways

Optical cable traction machines in Finland are available from multiple suppliers, but prices vary by model, capacity, and supplier; direct inquiries are needed for accurate quotes.

Suppliers and Options

Alibaba and Chinese ManufacturersFiber optic cable pulling machines with capacities up to 300 kg and speeds of 0–1. 5 m/s are available from Alibaba suppliers. China-based manufacturers offer wholesale options and OEM customization for cable traction machines.

Prices are typically negotiable depending on order volume and shipping to Finland.

Finnish and European Suppliers

Europages lists 16 companies in Finland supplying cable-pulling equipment, including winches, traction machines, and fiber optic installation tools. Companies like LGH Winches and Kabelmat Wickeltechnik provide both sales and rental options for cable traction equipment suitable for optical fiber deployment.

Specialized Optical Cable Traction Machines

Machines designed for 4–288 core optical cables, steel stranded wires, and large-section cables are available for overhead, buried, or duct installations. These machines feature electric motor drives, gearbox transmission, and support rods to maintain cable tension, improving efficiency and reducing labor costs.

Pricing Considerations

Price Range: While exact prices are not publicly listed, typical fiber optic cable traction machines can range from €3,000 to €15,000 depending on capacity, features, and supplier location. Customization: Machines with higher tensile force, longer cable capacity, or additional automation features may cost more. Shipping and Import: For Chinese suppliers, shipping to Finland and import duties should be factored into the total cost.

Rental Options: Some European suppliers offer rental services, which can be cost-effective for short-term projects.

How to Obtain Accurate Pricing

Contact suppliers directly via Alibaba, Made-in-China, or Europages to request a quote tailored to your project requirements. Specify cable type, core count, installation environment (overhead, buried, duct), and desired machine capacity. Ask about warranty, after-sales support, and delivery time to ensure full cost transparency.

By reaching out to these suppliers, you can obtain a detailed price list and technical specifications for optical cable traction machines suitable for use in Finland.
