Guatemala offers a full range of ladder-type cable trays

Overview

We offer a wide range of cable tray systems to support tubing, electrical cables and instrumentation.

Key Takeaways

Guatemala offers a full range of ladder-type cable trays suitable for diverse electrical and data cable management needs. Product Availability and RangeLadder-type cable trays in Guatemala are available in various sizes, materials, and configurations, designed to support electrical, control, data, and fiber optic cables efficiently. Manufacturers provide trays made from steel, stainless steel, galvanized steel, aluminum, and fiberglass (FRP/GRP), ensuring durability, corrosion resistance, and suitability for both indoor and outdoor applications.

Widths range from 100 mm up to 1500 mm, accommodating light to heavily loaded cable installations.

Key Features

Durable Construction: Steel and other high-quality materials provide long-term reliability. Corrosion Resistance: Protective coatings like hot-dip galvanization extend tray lifespan beyond 25 years. Customizable Options: Trays can be cut, expanded, or modified to meet specific routing requirements.
