# How much does a meter of 6-core outdoor optical fiber cable cost

## Overview

This is a black 1000 foot spool of indoor/outdoor rated Plenum fiber optic distribution cable intended for large installations of short range runs at 10 Gigabit speeds.

## Key Takeaways

Outdoor 6-core optical fiber cables typically range from $0. 50 to $2. 50 per foot depending on type, mode, and protective features.

### Pricing Overview

Alibaba Wholesale Options6-core outdoor fiber optic cables are available in bulk for large-scale projects. Prices vary based on armoring, gel-filled tubes, and single-mode vs multimode configurations. Bulk orders (1,000+ units) often reduce the per-meter cost significantly.

### India

Mart / SG BeldonHigh-performance single-mode 6-core cables are offered for export and domestic use. Prices depend on length, fiber type, and protective layers. These cables are designed for long-distance outdoor deployment with low attenuation and high durability.

### Multicore Infotech6-core FTT

H single-mode cables with FRP reinforcement and yarn for outdoor use are available. Pricing is influenced by outer diameter, fiber quality, and installation requirements. These are suitable for telecom and ISP networks.

### Cable

Wholesale (1000ft Spool)6-fiber multimode outdoor cable (62. 5/125 µm) is sold in 1,000-foot spools. Prices for such spools typically range around $500–$700 per spool, depending on compliance standards (TIA/EIA, UL, RoHS) and jacket type.

### Factors Affecting Price

Fiber Type: Single-mode cables are generally more expensive than multimode due to longer transmission distances and lower attenuation. Protective Features: Armored cables, gel-filled tubes, and UV-resistant jackets increase cost. Length and Bulk Orders: Longer runs and bulk purchases reduce per-foot pricing.

Supplier Location: International shipping and import duties can affect final cost.

### Recommendations

For long-distance outdoor telecom or industrial applications, consider single-mode armored cables for durability and minimal signal loss. For short-range LAN or campus networks, multimode cables are cost-effective and sufficient. Always verify supplier certifications, compliance standards, and warranty before purchase.

By comparing suppliers like Alibaba, IndiaMart, Multicore Infotech, and CableWholesale, you can select the best combination of price, quality, and delivery options for your outdoor 6-core fiber optic cable needs.
