How much does fireproof cable tray cost in Mali

Overview

The cable tray price list are for hot dip galvanized ladder type cable tray. The price is based on standard length of the cable tray which is 2.4 meters.

Key Takeaways

Fireproof cable trays in Mali typically range from $2 to $25 per meter, depending on material, type, and order quantity, with bulk orders offering significant discounts.

Price Range and Factors

The cost of fireproof cable trays in Mali varies widely based on material, tray type, size, and supplier. Common materials include galvanized steel, stainless steel, and aluminum, with stainless steel being the most expensive due to its corrosion resistance, while aluminum is lightweight but pricier than steel, and plastic trays are budget-friendly but unsuitable for heavy loads. Typical prices per meter range from $2 to $25, with bulk orders or project-based procurement potentially reducing costs by 20%–50%.

Tray types also influence cost: ladder trays are more expensive but support heavier cables, perforated trays allow air circulation and drainage, and solid-bottom trays are less common and generally cost more due to material usage.

Supplier Options in Mali

Several suppliers in Mali offer fireproof cable trays for industrial and construction use. Verified suppliers provide bulk purchasing options, custom sizes, and accessories such as covers and fittings. Platforms like Go4WorldBusiness list suppliers actively selling ladder-type, perforated, and channel cable trays to buyers in Mali, often with competitive pricing for large orders.

Additional Considerations

Installation and labor costs: Skilled labor and site conditions can affect total project cost. Shipping and import: Importing trays from international suppliers may reduce unit cost but adds freight and customs fees. Material and coating: Hot-dip galvanizing or powder coating increases durability and price.

Project scale: Large-scale industrial or infrastructure projects often negotiate lower per-meter rates due to volume discounts. In summary, for Mali, expect $2–$25 per meter for fireproof cable trays, with bulk orders, material choice, and tray type being the main cost drivers. Engaging verified local or regional suppliers can optimize pricing and ensure compliance with fire safety standards.
