How much does molded cable tray cost in Australia

Overview

CABLE TRAY 150 2.4MTR GB EzyStrut perforated cable trays are the strongest in their class, with 20mm return sides on all straight lengths, providing optimu.

Key Takeaways

Molded cable trays in Australia typically range from AUD 50 to AUD 250 per section, depending on material, size, and type.

Pricing Overview

The cost of molded cable trays varies based on material, length, and design: Aluminium trays: Lightweight, corrosion-resistant, and suitable for most installations; prices generally start around AUD 80–150 per 2-meter section. Galvanised steel trays: Strong and cost-effective, but heavier; prices typically range from AUD 50–120 per 2-meter section. Stainless steel trays: Highly durable and resistant to chemicals and corrosion, ideal for industrial or harsh environments; prices can reach AUD 200–250 per 2-meter section.

Perforated or basket-style trays: Offer better ventilation and cable accessibility; pricing is similar to aluminium or stainless steel depending on size and load capacity.

Factors Affecting Price

Length and Width: Longer or wider trays cost more due to additional material. Common lengths are 500mm, 1000mm, and 2000mm. Load Capacity: Heavier-duty trays designed to support more cables or industrial loads are priced higher.

Finish and Coating: Hot-dip galvanised or powder-coated trays are more expensive than standard pre-galvanised steel. Accessories: Fasteners, brackets, and connectors are usually sold separately, adding to the total cost. Supplier and Shipping: Prices vary between suppliers like RS Australia, MJS Electrical, AGM Electrical, and 4Cabling, with some offering free shipping over certain order amounts.

Buying Tips

Compare material and load requirements to avoid overpaying for unnecessary durability. Check if installation accessories are included or need to be purchased separately. Consider bulk orders for cost savings, as many suppliers offer competitive pricing for larger quantities.

Verify delivery options and lead times, especially for specialized materials like stainless steel or custom lengths. By considering these factors, you can select a molded cable tray that balances cost, durability, and suitability for your project in Australia.
