How to wire the four switches in the distribution box

Overview

This lesson demonstrates the step-by-step process of wiring a 4-gang switch box containing a four-way switch, a three-way switch, and two single pole switches. This configuration uses four standard single-pole switches, where each switch independently controls one fixture or group of fixtures. Working with household electrical systems requires strict. A 4 gang switch box wiring diagram is a technical blueprint that illustrates how to provide power to four individual switches housed in a single quadruple-width electrical box. Each switch will have three wires – a live wire, a neutral wire, and a ground wire. Whether you're an electrician or a DIY enthusiast, this guide will help you understand the basics of home electrical distribution. What is Distribution Board?
