Huawei 10 Gigabit Layer 3 Core Switch

Overview

Explore the Huawei CloudEngine S6730-H48X6C, a high-density 10G campus switch with 100G uplinks, integrated AC, VXLAN, and advanced security. Huawei's comprehensive portfolio of products and solutions enables you to realize smooth digital transformation and rapid growth of virtualization, Big Data, and cloud services. Huawei switches already help customers achieve success in industries such as finance, Internet, retail, education. They offer multiple models, such as those with twenty-four GE electrical ports, twenty-four GE optical/electrical hybrid ports, and forty-eight GE optical ports. These switches feature service processing capabilities. Therefore, they can be widely used as core switches on a small campus network or. Huawei S6730-H24X6C (24*10GE SFP+ ports, 6*40GE QSFP28 ports, optional license for upgrade to 6*100GE QSFP28, without power module) Tip: 1: This is basic version, if need 100G function upgraded version, you could click below link: 100g License Bundle Huawei Cloudengine Switch. The Huawei S6730-H Switch series answers with high-density 10 GE access, robust Layer-3 capabilities, VXLAN virtualization, and intelligent O&M. Positioned perfectly as an Aggregation Switch or Core Switch, the S6730-H delivers scalability, security, and cost-effectiveness for modern digital. Discover Huawei Layer 3 switches with POE, VLAN support, and 10/100/1000Mbps speeds. CE certified, stackable, ideal for enterprise networks. The S6700 can function as an access switch in an Internet data center (IDC) or a core switch on a campus network.
