

Installation price of metal outdoor distribution boxes

Overview

A typical home replacement for a 100–125A indoor panel runs about \$1,200–\$2,500 in parts and labor; a 200A outdoor upgrade with new meter socket can reach \$3,000–\$6,000. Assumptions: standard conduit routing, existing wiring reachable within 10–30 feet, and a single dwelling. Junction box costs range from low-price indoor models (\$10–\$60) to weatherproof units (\$70–\$450), with installation averaging \$100–\$300 depending on location and materials. Weatherproof outdoor models command higher prices, as do deep boxes and metal variants with impact resistance. For electrical boxes used in kitchens or near outlets, the box count and device. Buyers typically pay for a full panel replacement, including labor, materials, and permits. 50 to \$8 per box, with typical single-gang plastic boxes on the lower end and metal boxes or special-rated boxes on the higher end. Cost. Excludes sales tax, any applicable fees, dump charges, and costs for repair or remediation not mentioned in the work description.
