Jordan Non-metallic Drop Fiber Optic Cable

Overview

Featuring a flat, easy-strip design and G. 657 bend-insensitive fiber, these cables deliver reliable high-speed connectivity for both aerial outdoor spans and complex indoor routing. ETK Kablo 's Non-Metallic Armored Fiber Optic Cables are purpose-built for environments requiring high mechanical strength and complete electrical insulation. Designed with an all-dielectric structure, these cables are non-conductive and entirely immune to lightning strikes and electromagnetic. Capable of manufacturing versatile categories fiber optic cable and its accessories that includes all types of single mode and multimode optical fibers with various design constructions (Indoor, Outdoor DUCT, Direct-Buried, Armored, Areal, Subscriber, Drop, Distribution, Micro etc). Aim to provide. Fibertech redefines connectivity in Jordan with its multipurpose fiber services, offering speeds ranging from 100 Mbps to 10 Gbps These services enable the aggregation of end-users' traffic through mutual communication services with service providers. These diverse services include direct.
