Product Overview

Fiber optic fast connectors are factory pre-polished, field-installable connectors designed for single-mode (9/125 µm) fibers, compatible with 250 µm and 900 µm fibers, as well as 0. 9 mm, 2 mm, and 3 mm cordage. They are ideal for FTTH, LAN, telecom nodes, and data center applications, providing rapid, tool-less termination with typical insertion loss ≤ 0.

3 dB and return loss ≥ 50 dB for APC connectors. Common connector types include SC, LC, ST, MPO, and specialized miniaturized models for high-density setups. Key FeaturesPre-polished and factory-ready: Eliminates hand polishing in the field, reducing installation time.

High precision alignment: Uses zirconia ceramic ferrules with concentricity within 0. 5 µm and CNC-machined V-grooves for stable fiber alignment. Durable and flame-retardant housing: UL94 V-0 rated for indoor use.
