Major Manufacturer Stainless Steel 304 Cable Trays

Overview

Discover superior SS 304 cable tray systems offering exceptional corrosion resistance, high load capacity, and environmental durability for industrial electrical installations.

Key Takeaways

Several manufacturers provide high-quality Stainless Steel 304 cable trays suitable for industrial and commercial applications. Leading Manufacturers and Suppliers1. Superfab Inc Superfab Inc offers a wide range of stainless steel cable trays crafted from premium-grade 304 stainless steel.

Their trays are designed for durability, corrosion resistance, and heavy-duty cable support, suitable for indoor and outdoor environments, including coastal areas, chemical plants, and food processing industries. The trays are compatible with accessories like bends, tees, covers, and connectors, and feature pre-drilled holes for quick and modular installation. Their polished surface ensures easy cleaning and a professional appearance.

2. Lasnek Lasnek provides perforated stainless steel cable trays in multiple wall profile heights: 15mm light duty, 30mm medium duty, and 50mm heavy duty. These trays are designed for efficient cable management across various applications and industries, offering reliable support for small to large diameter cables.

3. Trayco Trayco supplies 304 stainless steel cable trays primarily for indoor and food/pharmaceutical industry applications. They also offer guidance for selecting the correct material and provide customized solutions for specific project requirements.

4. Thorne & Derrick UK / Cable Joints This supplier manufactures 304 stainless steel cable trays in light, medium, and heavy-duty ranges, with ten standard widths from 50mm to 900mm. They provide a full range of couplers, bends, tees, and risers for configuring cable containment systems in industries such as oil, gas, petrochemicals, rail, offshore, marine, nuclear, and food processing.

5.

Archi

Expo Platform Archi

Expo lists multiple brands offering stainless steel cable trays, including 304 grade, with options for ventilated or solid bottom sections. This platform allows comparison of products from leading manufacturers like LEGRAND, UNITRUNK, and MP Husky, providing a convenient way to source trays for professional installations.

Key Considerations

Material Grade: 304 stainless steel is ideal for indoor, food, and pharmaceutical applications, offering good corrosion resistance. For harsher outdoor or marine environments, 316 stainless steel may be preferred. Load Capacity: Choose trays based on cable diameter and weight; manufacturers provide light, medium, and heavy-duty options.

Customization: Many suppliers offer modular systems with bends, tees, and risers to fit complex cable routing. Maintenance: Stainless steel trays are low-maintenance, resistant to rust, and easy to clean, making them suitable for long-term installations. These manufacturers provide reliable solutions for secure, organized, and durable cable management in a wide range of industrial and commercial settings.
