Maldives Smart Integrated Power Supply

Overview

Reliable backup and prime power from 12 kW to 2800 kW, trusted by Maldives resorts and utilities Precision alternators up to 5000 kVA, integrated with Cummins engines Digital controllers with auto start/stop, load monitoring & remote-ready operationReliable backup and prime power from 12 kW to 2800 kW, trusted by Maldives resorts and utilities Precision alternators up to 5000 kVA, integrated with Cummins engines Digital controllers with auto start/stop, load monitoring & remote-ready operationThe micro grid relies on four diesel generators (2. 6 megawatts in total) to start energy production. Once the grid reaches 240V/50Hz, the Energy Storage System (ESS) and loads are connected to the grid and ARTICS Smart Energy takes over to manage the overall system. This landmark initiative will establish solar PV and energy storage infrastructure across 187 inhabited islands, positioning investors at the. State Electric Company Limited (STELCO) has announced the successful upgrade of its network to a smart grid, a significant milestone aimed at improving power management and efficiency. The announcement was made by Managing Director Hussain Fahmy during a press conference dedicated to the smart grid. Electrify Maldives provides reliable electrical engineering, power, marine, waste management, electric mobility, and energy solutions for resorts, utilities, commercial projects, and national infrastructure across the Maldives. Beyond 2028, exploring. Global entity Cummins Inc. in the Maldives for its full product line of diesel engines, diesel generating sets and related components.
