Mozambique Photovoltaic Cable Tray Prices

Overview

Mozambique Power Fiberglass Cable Tray PricesWe offer Cable Tray in Mozambique in different specifications at competitive market prices. Our range is custo.

Key Takeaways

Photovoltaic cable tray prices in Mozambique vary depending on material, size, and supplier, with aluminum and galvanized trays being the most common options.

Suppliers and Availability

Several companies supply cable trays suitable for photovoltaic installations in Mozambique: Brilltech Engineers Pvt. Ltd. offers a wide range of cable trays including galvanized, perforated, PVC, mild steel, and stainless steel options. Their trays are designed for durability and corrosion resistance, suitable for electrical and solar applications.

Jeetmull Jaichandlall (P) Ltd. manufactures cable trays in various sizes, shapes, and configurations, emphasizing high-quality finishing and compliance with industry standards. Trademo Mozambique provides a directory of cable tray manufacturers and suppliers, including shipment and trade data, which can help identify local and international sources. Aluminum alloy trays are available through suppliers like Europages, offering lightweight, corrosion-resistant options ideal for photovoltaic systems.

Factors Affecting Price

The cost of photovoltaic cable trays in Mozambique depends on several factors: Material: Aluminum trays are lighter and corrosion-resistant but generally more expensive than mild steel or PVC trays. Galvanized steel trays offer durability at a moderate cost. Size and Load Capacity: Larger trays or those designed to carry heavier cable loads will cost more.

Customization: Trays cut to specific lengths, with perforations or special coatings, may increase the price. Supplier and Shipping: Local suppliers may offer competitive pricing, while imported trays may include shipping and import duties.

Estimated Price Range

While exact prices are not publicly listed, typical market ranges for photovoltaic cable trays in Mozambique are: Aluminum cable trays: Approximately $15–$35 per meter depending on thickness and finish. Galvanized steel trays: Around $10–$25 per meter.

PV

C or perforated trays: $8–$20 per meter. These estimates can vary based on supplier, order volume, and specific project requirements. For precise pricing, it is recommended to contact suppliers directly to request quotes and confirm availability.

Recommendations

Compare multiple suppliers to ensure competitive pricing and quality. Consider the environmental conditions (humidity, corrosion risk) when selecting material. Request bulk order discounts if purchasing for large photovoltaic projects.

Verify compliance with local electrical and solar installation standards. By contacting suppliers like Brilltech Engineers, Jeetmull Jaichandlall, or checking trade platforms like Trademo, you can obtain accurate, up-to-date pricing tailored to your photovoltaic project needs in Mozambique.
