Multi-wavelength light source calibration in Kenya

Overview

35 KENAS-accredited ISO/IEC 17025 calibration labs in Kenya — find one to calibrate your equipment. Traceable Measurement Center (TMC) is a trusted local company specializing in comprehensive calibration and servicing of laboratory, factory, and medical equipment throughout the greater East African region. Our solutions encompass a range of systems, packages, software, and services, tailored to. Spectroscopy really hinges on precise measurements, and it all starts with wavelength calibration. Wavelength calibration makes sure every spectral line matches the correct. Incorporated in Kenya in 2008, we achieved our initial ISO 17025 accreditation in 2012 from the Kenya Accreditation Service (KENAS), reflecting our commitment to providing internationally recognized quality services to our customers. Every listing links to the lab's official KENAS scope document; filter by capability or county to narrow the results. Nairobi weighing-equipment supplier with mass calibration up to 200 kg M2. With a steadfast commitment to quality control and general testing, we offer unparalleled technical support and efficient after-sale services.

Wavelength Calibration Methods in Spectroscopy: Techniques & Best ...

Wavelength calibration makes sure every spectral line matches the correct wavelength, laying the groundwork for accurate analysis. Scientists pick from various calibration methods based

Azania Laboratory

We are a private company serving East Africa, with operations across Kenya, Uganda, Tanzania, South Sudan, Rwanda, Burundi, Somalia, the Democratic Republic of Congo, and the Central African

35 accredited calibration labs in Kenya

35 KENAS-accredited ISO/IEC 17025 calibration labs in Kenya — find one to calibrate your equipment. Every listing links to the official scope document.

CALIBRATION SERVICES

We are accredited by Kenya National Accreditation Services (KENAS). Our long experience of all types of equipment enables us to offer a comprehensive calibration service and maintenance service in all

Power stability control of a multi-wavelength LED light source using ...

In this paper, we propose a novel approach that enables accurate power monitoring without sacrificing optical energy, aimed at stabilizing the output power of a four-wavelength LED

GMP Services Ltd

Our laboratories are accredited by the Kenya National Accreditation Services (KENAS/TL/12; KENAS/TL/28) supported by the International Laboratory Accreditation Cooperation (ILAC) to ISO

Calibration Services

ISO 17025 certified calibration services for laboratory equipment. Fast turnaround, accurate results. Serving Kenya, Uganda, Tanzania.

TRACEBLE MEASUREMENT CENTRE

With some of the most accurate standards available, TMC proudly stands as the leading calibration laboratory in Kenya. Every calibration we undertake is

Calibration Lab

© 2026 CGWEB NETWORK INFRASTRUCTURE - All rights reserved

EIAL Procal Calibration lab is one of the leading calibration service providers in the East African market. We have already established our credibility in the market place, with the use of our state-of-the-art

CALIBRATION SERVICES

GSL also carries out calibration in volume and Force. All our calibration standards are traceable to Kenya Bureau of Standards (KEBS). We are accredited by Kenya National Accreditation Services

Improving multi-wavelength overlay measurement time by the

Abstract This paper introduces an innovative approach to streamline the time-consuming process of multiple-wavelength measurement in semiconductor overlay metrology. To achieve this, a

Multi-wavelength light source calibration in Japan

For lamp-based testing applications, we offer calibration light sources designed for the optical calibration of spectroradiometers, photometers, and radiometers.

About Us – TRACEBLE MEASUREMENT CENTRE

Every calibration is meticulously performed and fully traceable to international standards, giving us complete confidence in our results. TMC''s ISO 17025

Calibration & Certification Of Process Instruments

Calibration involves both types of applications where precision measurement and precision sourcing are required. A precision source is used to test a

Calibration Techniques for Multi-Wavelength Telescope Arrays:

Accurate calibration in multi-wavelength telescope arrays hinges on controlling and compensating for atmospheric and environmental effects. Changes in air composition, temperature,

Multi-Wavelength LEDs

Multi-wavelength collimated, fiber- or lightguide-coupled LED sources. Simulateously multi-wavelength output or fast switching with no mechanical motion.

Spectrometers: Spectroscopic calibration uses LEDs

To ensure optimal accuracy and repeatability for any spectroscopy instrument, Princeton Instruments developed a calibration system called IntelliCal, which

Accredited Quality Assurance Calibration

© 2026 CGWEB NETWORK INFRASTRUCTURE - All rights reserved

Accredited calibration services for measurement equipment ensure accurate quality assurance calibration, reducing rework and liability costs in your production.
