North Macedonia Explosion-proof Distribution Box Manufacturer

Overview

Warom Explosion Proof Equipment | ATEX IECEx Explosion-proof Warom specializes in manufacturing explosion-proof electrical equipment, with products coverin.

Key Takeaways

Global manufacturers like Warom, BARTEC, Supermec, and R.

STAH

L provide ATEX/IECEx-certified explosion-proof distribution boxes suitable for hazardous areas, which can be sourced for use in North Macedonia.

Key Manufacturers and Products

Warom specializes in explosion-proof electrical equipment, including distribution boxes, control equipment, and motor switches. Their HRMD91 series features flameproof enclosures (Ex d IIB+H2) made from copper-free aluminum with powder-coated surfaces, designed for durability and long service life. These boxes can be combined and installed flexibly, and client-specific requirements can be incorporated.

BARTE

C offers a wide range of explosion-proof and substance-resistant components, including low-voltage switchgears, power distribution boards, and junction boxes up to 40kV. Their solutions cover Ex d (flameproof), Ex e (increased safety), Ex i (intrinsically safe), and Ex p (pressurized) protection types, with modular and custom configurations for hazardous zones. Supermec manufactures ATEX-certified explosion-proof junction boxes and electrical control equipment for chemical, petrochemical, pharmaceutical, and oil & gas industries.

Their products are designed to withstand highly corrosive environments and provide long-term reliability. R.

STAH

L provides terminal and junction boxes certified for hazardous areas worldwide. They offer both standard and custom-made solutions with short delivery times, ensuring compliance with international installation standards.

Considerations for North Macedonia

While there may not be a local manufacturer in North Macedonia, these international suppliers can ship and install products locally. Ensure that the selected distribution boxes comply with ATEX, IECEx, or CENELEC standards for hazardous zones relevant to your facility. Customization options are available for size, material, and mounting configurations to meet specific industrial requirements.

Consulting with local electrical contractors or distributors familiar with hazardous area installations can help with installation, certification, and maintenance. By contacting these manufacturers directly, companies in North Macedonia can obtain explosion-proof distribution boxes tailored to their operational needs, ensuring safety, compliance, and long-term reliability.
