Price List for Flame-Retardant Cable Trays in Australia

Overview

Fire-Resistant Cable Trays | Trafalgar Fire ProductsDiscover Trafalgar Fire's fire-resistant cable trays. Ensure safety and compliance with our top-quality.

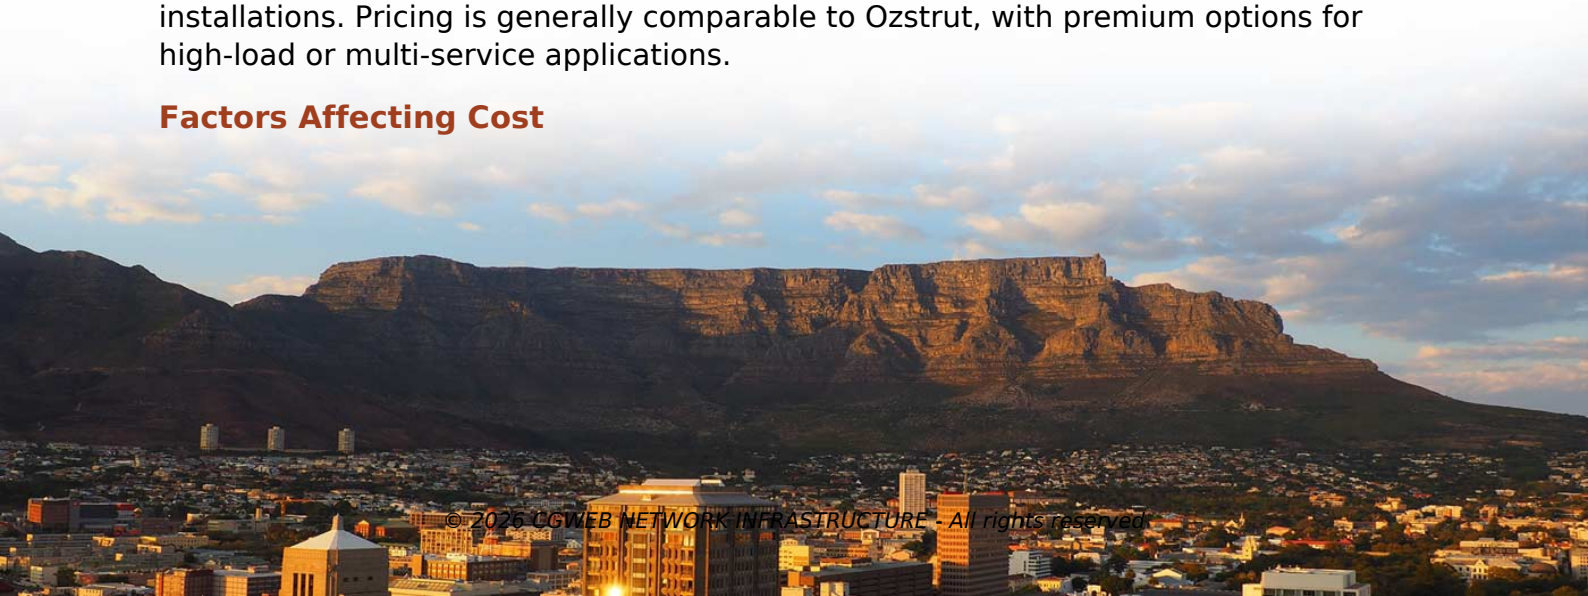

Key Takeaways

Fire-rated cable trays in Australia typically cost between AUD 150 and AUD 400 per 3-meter section, depending on size, material, and supplier. Price OverviewEzyStrut Fire Rated ET5 Tray: A 150mm wide by 3000mm long tray weighs 12. 5kg and is designed for indoor or outdoor installation.

While exact pricing is not listed online, similar trays generally range from AUD 150–250 per section depending on supplier and quantity. Ozstrut Fire Rated Cable Trays (T3 Series): Designed for light to heavy-duty applications in commercial and industrial settings, these trays are modular and corrosion-resistant. Prices for T3 series trays typically fall in the AUD 200–400 range per 3-meter length, with variations based on width, load capacity, and fire rating.

Trafalgar Fire Products: Offers a range of fire-resistant cable trays suitable for critical installations. Pricing is generally comparable to Ozstrut, with premium options for high-load or multi-service applications.

Factors Affecting Cost

© 2026 CGWEB NETWORK INFRASTRUCTURE - All rights reserved

Tray Width and Depth: Wider or deeper trays that support more cables are more expensive. Material and Coating: Stainless steel or corrosion-resistant coatings increase cost. Fire Rating: Higher fire-resistance ratings (e.g., 2-hour vs 1-hour) typically add to the price.

Supplier and Volume: Bulk purchases or direct supplier orders may reduce per-unit cost.

Additional Considerations

Installation: Fire-rated trays may require specialized supports or brackets, which can add to overall project costs. Compliance: Ensure trays meet Australian standards for fire safety and electrical installations, especially in hospitals, data centers, or high-risk facilities. Accessories: End caps, bends, and junctions for fire-rated trays may be sold separately and affect total expenditure.

In summary, for a standard 3-meter fire-rated cable tray in Australia, expect to pay AUD 150–400 per section, with higher-end trays for heavy-duty or high fire-resistance applications costing more. For precise pricing, contacting suppliers like EzyStrut, Ozstrut, or Trafalgar Fire is recommended to obtain quotes tailored to your project specifications.
