Price list for 1 meter of 12-core TS optical cable

Overview

Amazon.com: 12 Strand Fiber Optic CableShop products from small business brands sold in Amazon's store. Discover more about the small businesses partnering.

Key Takeaways

The price of 1 meter of 12-core optical fiber cable ranges from approximately $0. 30 to $6. 50 depending on fiber type, quality, and armor protection.

Price BreakdownSingle-mode fiber (OS2, standard telecom use): $0. 30 to $2. 80 per meter.

Prices vary based on the brand and quality of the glass, with premium brands like Corning offering lower attenuation over long distances. Multi-mode fiber (OM3/OM4, high-speed short-range applications): $1. 50 to $6.

00 per meter. Multi-mode fibers are more expensive due to wider cores and stricter manufacturing standards. Armored cables (steel or aluminum reinforcement for outdoor or high-risk environments): $1.

15 to $6. 50 per meter. Armor adds mechanical protection against physical damage, rodents, or accidental digging.

Factors Affecting Price

Fiber Type: Single-mode fibers are cheaper for long-distance telecom applications, while multi-mode fibers are optimized for short-range, high-speed data transmission. Cable Construction: Armored cables cost more due to additional protective layers. Indoor tight-buffered cables are generally less expensive than outdoor loose-tube or hybrid designs.

Brand and Quality: Premium glass and CE-certified cables with low attenuation and high durability command higher prices. Quantity and Supplier: Bulk purchases from manufacturers or verified suppliers may reduce per-meter costs, while retail or small-quantity purchases may be higher.

Summary

For a 1-meter length of 12-core TS optical cable, expect a price range of $0. 30 to $6. 50, with the lower end for standard single-mode indoor cables and the higher end for armored multi-mode or premium-brand cables.

Always consider the intended application, environment, and required performance when selecting the cable type.
