Price list for 8-core ADSS optical cable in Mali

Overview

Price list for 8-core ADSS optical cable in MaliExplore detailed specifications and price- influencing factors of 24 core ADSS optical fiber cables. Learn.

Key Takeaways

The price of 8-core ADSS optical fiber cable typically ranges from $0. 10 to $0. 35 per meter, depending on specifications, sheath type, and supplier, with additional shipping and import costs for Mali.

Estimated Pricing

The cost of an 8-core ADSS cable depends on several factors: Fiber Core Count: More cores increase material and production costs, but 8-core is considered a low-to-medium count, keeping prices moderate. Sheath Type: Standard PE jackets are cheaper, while anti-tracking (AT) or UV-resistant sheaths increase durability and cost. Cable Span and Mechanical Strength: Longer spans or high-tension installations require reinforced structures, slightly raising the price.

Supplier and Region: Prices vary by manufacturer and shipping location. Suppliers in Asia, particularly China, dominate production and offer competitive rates. Typical market prices for 8-core ADSS cables are approximately $0.

10–$0. 20 per meter for standard PE jackets and $0. 25–$0.

35 per meter for reinforced or AT jackets. Bulk orders (tens of kilometers) may reduce the per-meter cost.

Procurement Considerations for Mali

International Shipping: Importing from China or other suppliers will add freight, customs duties, and local taxes. Supplier Options: Platforms like Alibaba list multiple 8-core ADSS cable suppliers with international shipping options.

GL FIBE

R, for example, has supplied ADSS cables across Africa, including West African countries. Standards Compliance: Ensure cables meet IEC 60794 or equivalent standards for durability, UV resistance, and temperature tolerance, especially in Mali's climate. Installation Accessories: Consider additional costs for aerial installation hardware, clamps, and grounding accessories.

Recommendation

For a project in Mali, it is advisable to: Request quotes from multiple international suppliers for 8-core ADSS cables. Specify sheath type, span length, and tensile strength to get accurate pricing. Include shipping, customs, and local handling costs in the budget.

Consider bulk purchasing to reduce per-meter cost. By following these steps, you can obtain a cost-effective and reliable supply of 8-core ADSS optical fiber cable suitable for telecom or power line projects in Mali.
