

Price list for optical fiber cable reinforced with steel wire

Overview

High Strength Steel Wire (HSSW) Armored Fiber Optic Cable 288 Since the first use of fiber optics, AFL has led the way with innovative cable products that.

Key Takeaways

Optical fiber cables with steel wire typically cost between \$0.50 and \$5 per foot, depending on fiber count, construction, and application.

Pricing Overview

The cost of fiber optic cables with steel wire reinforcement varies widely based on specifications and purchase volume. For bulk material purchases, prices generally range from \$0.50 to \$5 per linear foot.

Lower-end prices apply to simple, low-strand-count cables, while high-strand-count or armored cables suitable for outdoor or direct-burial applications can reach the upper end of this range. Retail prices may be slightly higher, typically \$1 to \$6 per foot, reflecting smaller quantities and pre-terminated assemblies.

Factors Affecting Price

Fiber Type and Count: Single-mode fibers are usually less expensive per foot than multimode fibers. Higher strand counts increase the cost proportionally; for example, a 12-strand cable may cost around \$0.50 per foot, while a 24-strand cable can reach \$1 per foot.

Cable Construction: Armored cables with steel wire reinforcement are more expensive than standard indoor riser-rated cables due to added durability and suitability for harsh environments. Application: Outdoor, direct-burial, or long-haul cables require more robust construction, increasing material costs. Indoor or short-distance cables are generally cheaper.

Bulk vs Retail: Purchasing directly from manufacturers or in large quantities can reduce per-foot costs by 20–40% compared to retail prices. Additional Considerations: Pre-terminated or patch cables incur higher costs due to factory termination and connector types. Shipping and tariffs may affect final pricing, especially for international orders.

Installation costs are separate and can range from \$1 to \$6 per foot, depending on labor and complexity. In summary, for optical fiber cables with steel wire, expect \$0.50–\$5 per foot for materials, with higher prices for specialized, high-strand-count, or armored cables, and additional costs for installation or pre-terminated assemblies.

Article Content

High Strength Steel Wire (HSSW) Armored Fiber Optic Cable 288

Since the first use of fiber optics, AFL has led the way with innovative cable products that deliver exceptional solutions for our customers. Our robust product line is now in service in over 100

Steel Wire Strand for Optical Cable 2026

Find high-tensile, corrosion-resistant steel wire strand for optical cable. Compare suppliers, prices, and customization options. Click to explore verified manufacturers and get the best deals today.

Reinforced Optical Cables

Shop for reinforced optical cables from reliable suppliers. Enjoy durable, high-quality fiber optic cables for your communication needs. Bulk orders welcome.

Steel Wire Armoured Fibre Optic Cable (SWA)

SWA cable has a similar design to CSTA cable but it can be used to offer the best protection for fibre exposed to the elements or when used in direct burial application.

Ftth fiber optic cable

Ftth fiber optic cable, steel wire and rods reinforced, other called butterfly type drop cable is designed to used indoor and outdoor, on last mile installation routes to

Best OSP Fiber Cable|GYTA33 Optic Cable 12 cores SM Armoured

Explore the details, specifications and video of our GYTA33 Optic Cable 12 Cores, and order high-quality GYTA33 Optic Cable 12 Cores from our factory directly at competitive pricing.

Steel Wire Armored Tight Buffer Fiber Optic Cable

Durable steel wire armored fiber optic cable with tight buffer design, ideal for outdoor and industrial environments. Strong mechanical protection, factory supply, OEM

48 Core Optical Fiber cable

Shop 48 Fiber Metallic Armored OFC cable at best price (Optical Fiber Cable) for high-speed, long-distance data transmission. Durable and ideal for telecom,

Armoured Fibre Optic Cables | Fibre Optic Cables | Netceed UK

Netceed are suppliers of armoured fibre optic cables, including steel wire armoured options. Get custom lengths delivered the next day.

ASTM International | ASTM

Over 13,000 ASTM standards operate globally. Defined and set by us, they improve the lives of millions every day. ASTM provides the standards and solutions you

Import Export Database | Global Import Export Trade

Get global import-export trade data from 200+ countries with Exim Trade Data to drive informed decisions, optimize supply chains, and boost sales.

Accuris Standards Store | Engineering & Technical Documents

Engineering standards, global engineering documents, specifications, technical books, and technical resources available for immediate download.

Fiber Optic Cable

Find here Fiber Optic Cable, OFC manufacturers, suppliers & exporters in India. Get contact details & address of companies manufacturing and supplying Fiber Optic Cable, OFC, Fiber

Ftth cable Steel Wire Frp Rods Reinforced, 1 fiber

Ftth cable Steel Wire Frp Rods Reinforced, 1 fiber core other called self-support drop cable is designed to used indoor and outdoor, on last mile installation

Latest OPGW Cable Price List

OPGW Optical Ground Wire cables have become essential components in modern telecommunication and power distribution systems. They serve a dual purpose: providing grounding

Fiber optic wire : price list of OFC optical fibre cable shop material ...

Ask prices varieties in quality of fibre wires. with / without FRP / thread, diameter, high quality pvc material. Optical Fiber Cable – OFC at best Price, direct supplier : himachal pradesh, chandigarh,

Top 10 Fiber Optic Cable Manufacturers in India for ...

Explore the top 10 fiber optic cable manufacturers in India known for premium quality, cutting-edge technology, and reliable network solutions.

Armoured Fiber Optic Cable

Find here Armoured Fiber Optic Cable, 4 Core Armoured Fiber Optic manufacturers, suppliers & exporters in India. Get contact details & address of
