

Price of Fiber Optic Distribution Boxes and Fiber Spread Boxes

Overview

Fiber Optic Wall Mount Box with LC Couplers for Single Mode & Multimode Fiber Optic Cable. | Fiber Box Enclosure for MPOE's, Network Rooms, and IDF Rooms.

Key Takeaways

Fiber optic distribution boxes typically range from \$20 to \$300 depending on capacity, type, and brand. Price Overview
Small-capacity boxes (2-12 cores): These are usually wall-mounted or compact indoor boxes, priced around \$20-\$50 on platforms like Amazon and Newegg. They are suitable for home or small office installations.

Medium-capacity boxes (24-48 cores): These boxes, often used in small to medium network rooms, cost approximately \$50-\$120. They may feature LC or SC couplers and support both single-mode and multimode fibers.
High-capacity boxes (72-96 cores): Designed for larger deployments or outdoor use, these boxes can range from \$150-\$300.

Vendors like ISP-Home.com offer factory-direct pricing for high-quality boxes with robust anti-UV and anti-aging materials.

Factors Affecting Price

Material and durability: Boxes made from high-strength engineering plastics with anti-UV and anti-aging properties are more expensive. Capacity: The number of fiber cores supported directly impacts cost. Type: Wall-mounted, pole-mounted, or outdoor weatherproof boxes vary in price.

Brand reputation: Established brands with reliable quality and warranty often cost more but provide better long-term performance. Accessories: Additional features like LC/SC couplers, splice trays, and cable management components can increase the price.

Recommendations

For home or small office networks, a 2–12 core wall-mounted box is cost-effective. For medium-sized networks, a 24–48 core box balances capacity and price. For large-scale or outdoor deployments, invest in 72–96 core boxes with durable materials to ensure longevity and protection against environmental factors.

By comparing vendors like FS.com, Amazon, Newegg, and ISP-Home.com, you can find competitive pricing and quality options suitable for your specific network needs.
