# Price of I-beam cable tray installation

## Overview

On average, the cable tray installation cost per meter increases by approximately $10 to $30 per meter depending on the complexity of the installation and the labor rates in the area.

## Key Takeaways

I-beam cable tray prices vary widely depending on material, size, and load capacity, and are typically obtained via supplier quotes.

### Factors Affecting Price

Material: I-beam trays are available in aluminum, steel, stainless steel, and PVC-coated options. Aluminum trays are lightweight and corrosion-resistant, often reducing installation labor costs, while steel and stainless steel provide higher load capacity but may cost more. Size and Load Capacity: Standard widths range from 6" to 36", with lengths from 120" to 288".

Rung spacing (6", 9", 12") and load ratings (up to 100+ pounds per foot) influence cost. Certifications and Standards: Trays certified to NEMA VE-1, CSA, or UL may carry a premium due to compliance with industrial standards. Accessories and Fittings: Additional components like couplers, hold-down clips, and expansion guides can increase overall project cost.

### How to Obtain Pricing

Contact Suppliers Directly: Companies like MP Husky, Vantrunk, and Atkore provide detailed specifications and require direct quotes for pricing. Online Distributors: Platforms like McMaster-Carr offer a wide range of cable trays, sometimes with listed prices for standard sizes, though I-beam trays may require a custom quote.

### Project-

Specific Quotes: Prices are often calculated based on material, tray length, width, load rating, and quantity, so providing these details to suppliers ensures accurate pricing.

### Practical Tip

For budgeting, aluminum I-beam trays are generally more cost-effective for light to medium loads, while steel or stainless steel trays are preferred for heavy industrial applications. Always request a detailed quote including accessories and shipping to avoid unexpected costs. By considering these factors and contacting suppliers directly, you can obtain accurate pricing tailored to your project requirements.
