Price of Imported Network Equipment Racks

Overview

Network Rack Import Data Global | Network Rack Importers Network Rack Import data is a record of global trade transactions involving Network Rack products.

Key Takeaways

Imported network equipment racks typically range from $100 for basic wall-mounted units to over $3,000 for high-capacity or specialized models, with wholesale options available from manufacturers in China.

Price Ranges

Basic Wall-

Mounted Cabinets: $100–$300, suitable for small offices or home labs, typically 6U–12U in size, made from steel or aluminum.

Standard Floor-

Standing Racks: $400–$1,200, commonly used in corporate data centers, offering 24U–42U vertical space, better airflow, and cable management.

Specialized Outdoor or High-

Capacity Racks: $1,500–$3,000+, designed for harsh environments or large-scale server deployments, often with corrosion-resistant coatings and advanced cooling.

Wholesale and Bulk Options

Platforms like Global Sources and Alibaba offer hundreds of network rack models at factory-direct prices, ideal for bulk purchases. Suppliers such as Cobtel Precision Electronics Co., Ltd. provide competitive pricing for bulk orders and can issue formal quotations upon request.

Factors Affecting Cost

Material: Steel is cheaper, while aluminum alloys with corrosion-resistant coatings increase cost by $100–$300. Size: Larger racks cost more due to additional materials, labor, and shipping. A 42U rack is significantly more expensive than a 6U unit.

Features: Lockable doors, cable management, cooling systems, and outdoor suitability add to the price. Shipping and Import Fees: Importing racks from overseas suppliers may include freight, customs duties, and taxes, which vary by country. How to Obtain a QuoteIdentify your requirements: Determine rack type, size (U units), material, and any special features.

Contact suppliers directly: For bulk or imported orders, request a formal quotation from manufacturers like Cobtel or through wholesale platforms. Compare options: Evaluate multiple suppliers for price, shipping terms, and warranty. By considering these factors, you can obtain a precise price quote tailored to your specific network equipment needs.
