Price of Optical Splitter and Optical Distribution Box

Overview

Amazon.com: Fiber Distribution BoxETS Fiber Optic Distribution Box 4 Core – IP65 Waterproof, UV Resistant, FTTH, FTTx, Wall/Pole Mountable, Industrial Netw.

Key Takeaways

FTTH optical distribution boxes range from around $15 to over $500 depending on port count, material, and included splitters. Price Overview by Port Count and Type4-Port Distribution Boxes: Typically priced between $21 and $93. For example, a 4-port FTTH fiber distribution box with SC/APC adapters and a fusion splice pigtail costs about $92.

99 on Newegg, while simpler 4-port boxes without splitters are available for $21–$25 on eBay and Newegg. 6-Port Distribution Boxes: Prices range from $15 to $52, depending on features like waterproofing, wall-mount design, and included adapters. 8-Port Distribution Boxes: Available for $47–$52, often including LC or SC adapters and IP65 waterproof ratings for outdoor use.

16-Port Distribution Boxes: These are more advanced, supporting plug-in PLC splitters or pre-installed 1x16 splitters. Prices range from $13. 50 for basic indoor models to $165.

94 for fully pre-terminated outdoor boxes with 16 SC/UPC adapters and a 1x16 PLC splitter. 24-Port and Higher: Larger boxes, suitable for multi-floor or enterprise installations, can cost $50–$531, depending on whether they include adapters, splitters, or are fully pre-terminated. Splitter Pricing1x2, 1x4, 1x8, 1x16 PLC Splitters: Standalone splitters range from $21.

99 to $57. 99 depending on the split ratio and connector type (SC/APC or LC/UPC) and are often included in higher-end distribution boxes. Pre-installed Splitters: Distribution boxes with pre-installed splitters (e.g., 1x16 SC/UPC) are priced higher due to convenience and reduced installation time, typically $165–$179 for outdoor IP65-rated models.

Factors Affecting Price

Material: ABS or ABS+PC plastics are common; metal boxes are more durable and slightly more expensive. Waterproof Rating: Outdoor boxes with IP65 or IP68 ratings cost more than indoor-only models. Pre-installed Components: Boxes with adapters, pigtails, or splitters included are priced higher.

Port Count: More ports increase both the size and cost of the box. Brand and Warranty: Premium brands or boxes with extended warranties may cost more.

Summary

For small residential FTTH setups, 4–8 port boxes with or without splitters are sufficient and cost $20–$50. For larger installations or enterprise networks, 16–24 port boxes with pre-installed splitters range from $100–$500. Standalone splitters can be purchased separately for $22–$58 depending on type and capacity.
