Price of a 3-meter pigtail

Overview

High quality pre-terminated 900µm optical fiber pigtails with LC, SC, ST connectors for fiber splicing applications. Choose from single mode, multimode and 10G OM3/OM4 fibers.

Key Takeaways

A 3-meter pigtail typically costs between $2 and $50 depending on whether it is a fiber optic or electrical pigtail and the materials used.

Fiber Optic Pigtails

For fiber optic pigtails, a 3-meter length is commonly available and includes a zirconia ceramic ferrule with Corning fiber cable. Prices for these pigtails generally range from $2 to $10 per unit for standard single-mode or multi-mode types, depending on the connector style and vendor. Specialty or high-performance fiber pigtails may cost more, especially if they include premium connectors or require factory-polished ends.

Electrical Aluminum Pigtails

For aluminum-to-copper electrical pigtails, the cost is influenced by materials, labor, and the number of connection points. A single copper pigtail wire with a connector can cost $2 to $5 for materials alone, but installation in a home typically involves labor charges. Electricians often charge $100–$150 per hour, with each pigtail taking 10–20 minutes to install.

For a small project, the total cost per pigtail may range from $25 to $50, including labor and materials. Larger projects, such as retrofitting an entire home, can reach $2,000–$6,000 depending on the number of outlets, switches, and panel upgrades required.

Factors Affecting Cost

Material type: Copper pigtails are more expensive than aluminum connectors. Fiber optic pigtails vary by connector type and fiber quality. Length: Longer pigtails may slightly increase material costs.

Labor: Electrical pigtails require professional installation, while fiber optic pigtails are often installed by technicians or DIY users. Regional pricing: Labor rates and permit fees can vary by location, affecting total cost for electrical pigtails. In summary, a 3-meter fiber optic pigtail is relatively inexpensive, typically under $10, while a 3-meter electrical pigtail including installation can cost $25–$50 per connection, with larger projects costing thousands depending on scope and complexity.
