Price of distribution box with base

Overview

Distribution Box Price, 2026 Distribution Box Price Manufacturers. What's the typical price range for power distribution cabinet & box orders?

The Distri.

Key Takeaways

Distribution box base prices typically range from $3. 75 for basic industrial panels to several hundred dollars for commercial or residential units with advanced features.

Overview of Pricing

The cost of a distribution box base varies widely depending on size, material, voltage rating, amperage capacity, number of circuits, and environmental protection rating. Basic IP66-rated panel board boxes suitable for industrial or wholesale use can start at approximately $3. 75 per unit.

Standard residential or commercial distribution boxes, especially those with multiple circuits, weather-resistant enclosures, or smart monitoring features, can cost from $50 up to several hundred dollars.

Factors Affecting Price

Material and Durability: Metal enclosures or weather-resistant outdoor-rated boxes are more expensive than basic plastic indoor units. Capacity and Specifications: Higher amperage, three-phase systems, or larger circuit counts increase the price. Customization: Options like OEM branding, busbar modifications, top cable entry, or integration with building management systems can significantly raise costs.

Order Volume: Wholesale or bulk orders often reduce per-unit pricing, while single-unit purchases may be higher.

Typical Applications

Residential: Single-phase or small three-phase units for homes and apartments. Commercial: Medium-capacity boxes for offices, retail, or small industrial facilities. Industrial: Heavy-duty enclosures for factories, data centers, or outdoor installations requiring high IP ratings and robust construction.

Purchasing Options

Distribution box bases are available through online marketplaces like Alibaba, Amazon, and specialized electrical suppliers, offering both standard and customizable units. For precise pricing, it is recommended to request a quote from suppliers, especially for custom or high-capacity units, as prices fluctuate based on specifications and order size. In summary, a basic distribution box base can cost as little as $3.

75, while more advanced or commercial-grade units may range from $50 to several hundred dollars, depending on features, materials, and customization requirements.
