Price of fiber optic module connection patch cord

Overview

Fiber Optic Patch Cables: The Complete 2026 Buyer's This complete fiber optic patch cable guide covers connector types, single-mode vs multimode, insertion.

Key Takeaways

Fiber optic patch cord prices typically range from $2 to $50 per unit, depending on fiber type, connector, length, and additional features.

Price Ranges and Factors

The cost of a fiber optic patch cord module varies widely based on several factors: Fiber Type: Single-mode (OS1/OS2) cords are generally more expensive than multi-mode (OM3/OM4/OM5) due to longer transmission distances and lower attenuation. Connector Type: Common connectors include LC, SC, ST, MPO/MTP, and E2000. MPO/MTP connectors, especially for 12F or 24F cores, require precise alignment and polishing, increasing cost.

Length: Prices increase linearly with length, but armored or specialized jackets (LSZH, PE) add extra cost. Jacket Material: LSZH (Low Smoke Zero Halogen) and armored cables are more expensive due to safety and durability requirements. Polishing and Testing: High-quality cords with APC/UPC polishing and tested insertion/return loss are priced higher.

Bulk Orders: OEM or bulk purchases reduce unit cost, though setup fees for custom logos or labels may apply ($30–$100 per order),.

Typical Price Examples

Standard 1–3 meter LC-LC single-mode patch cord: $5–$15 per unit. Multi-mode OM3/OM4 LC-LC patch cord: $3–$10 per unit. MPO/MTP 12F or 24F patch cords: $20–$50 per unit, depending on fiber type and testing.

Armored or LSZ

H cords: Add $5–$15 per unit compared to standard jackets. Regional ConsiderationsU. S.: UL-listed or ETL-verified cords are often required, with strict plenum or riser fire ratings.

Europe: LSZH materials are standard, and armored cords are common for underfloor installations. Middle East: Flame-retardant jackets and PE-sheathed outdoor cords are preferred.

Where to Buy

Fiber optic patch cords are available from online retailers and specialized suppliers such as EFB-Elektronik, FS Europe, UnitekFiber, and marketplaces like Amazon. Prices vary by supplier, stock availability, and customization options. In summary, expect to pay $2–$50 per fiber optic patch cord module, with higher prices for specialized connectors, longer lengths, armored jackets, or bulk-tested high-quality units.
