Price of low-voltage network cable trays

Overview

Choose from our selection of cable trays, including over 850 products in a wide range of styles and sizes. Same and Next Day Delivery.

Key Takeaways

Low-voltage cable trays typically range from $15 to $34 per unit for consumer purchases, with bulk or industrial prices starting as low as $0. 80 per foot, depending on material and type. Pricing OverviewLow-voltage cable trays are available in various materials and designs, which significantly affect cost: Wire Mesh Cable Trays: Common for low-voltage and data cables, made from welded steel with patented load-optimized designs.

Prices for consumer-grade trays range from $15 to $34, while bulk industrial orders can be as low as $0. 80 per foot. Ladder and Perforated Trays: Typically used in commercial or industrial settings, prices vary based on material (stainless steel, aluminum, or galvanized steel) and load capacity.

PV

C or Coated Trays: Offer corrosion resistance and fire safety, often slightly higher in price due to durability and compliance with safety standards.

Factors Affecting Price

Material: Stainless steel (304 or 316) and hot-dip galvanized steel are more expensive but offer long-term durability and corrosion resistance. Size and Load Capacity: Wider trays or those designed for heavy-duty applications cost more. Standard low-voltage trays are usually smaller and lighter, reducing cost.

Installation Features: Tool-free assembly, modular designs, and patented safety edges (like Safe-T-Edge) can increase upfront cost but reduce labor and maintenance expenses. Purchase Volume: B2B bulk purchases significantly lower per-unit cost compared to B2C retail prices. Cost ConsiderationsB2C (Retail): Ideal for small-scale projects or home offices, with prices between $15–$34 per tray.

B2

B (Industrial/Commercial): Bulk orders for construction or data centers can range from $0. 80 to over $76 per foot, depending on material, size, and specifications.

Long-

Term Value: Investing in higher-quality trays can reduce replacement frequency, maintenance costs, and installation time. In summary, for low-voltage cable management, wire mesh trays are the most common and cost-effective, with prices varying based on material, size, and purchase volume. For industrial projects, bulk purchasing from suppliers like ABB, Legrand, or RS PRO can provide significant savings while ensuring durability and compliance with safety standards.
