

Price of sheet metal cutting for network cabinets

Overview

Sheet metal fabrication costs range from \$422 to \$3,018 for your project, with labor rates between \$50 and \$130 per hour. The metal type you select and the complexity of your custom shapes or finishes will determine your final project total. In this guide, we will explore the cost considerations in sheet metal cutting and provide practical insights into the variables that affect cost. Multiaxis CNC machining in billet stock. Bends within 1 degree of accuracy or better. Add strong, permanent fasteners to your metal parts. Get custom parts like these, fast. Parts came out exactly as designed! Lead time was great and nice to be able to have this part made which SendCutSend could not make due to size constraints. Design services run \$50 to \$200 per. So, exactly how much do you have to pay for sheet metal?

The cost for the raw material will vary from \$2 per square foot if you are buying simple steel up to \$25 or more per square for materials like copper.
