SW6510 Fiber Optic Switch

Overview

The Brocade 6510 switch is a versatile 1U Fibre Channel switch designed for modern SAN environments. With 8,192 dynamically allocated frame buffers, it supports 8 Gbps, 10 Gbps, and 16 Gbps speeds via Brocade hot-pluggable SFP+ modules. at support highly virtualized environments. Designed to enable maximum flexibility and investment protection, the Brocade 6510 is configurable in 24, 36, or 48 ports and supports 2, 4, 8, or 16 Gbps s eeds in an efficiently designed 1U package. The Brocade 6510 with Gen 5 Fibre Channel unleashes the full potential of high-density server virtualization, cloud architectures. The Brocade® 6510 Switch meets the demands of hyper-scale, private cloud storage environments by delivering market-leading Gen 5 Fibre Channel technology and capabilities that support highly virtualized environments. This approach enables organizations to consolidate and simplify their IT resources, resulting.
