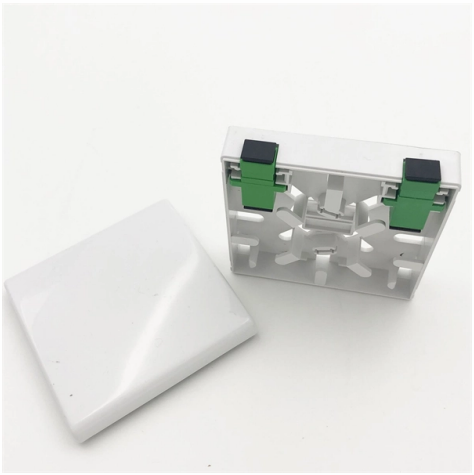
Slovenian quality cable tray prices



Overview

Cable Tray In Slovenia, Cable Tray Manufacturers Suppliers SloveniaCable Tray is often a cost-effective solution compared to other materials. It is relativ.

Key Takeaways

Cable tray prices in Slovenia typically range from €15 to €80 per meter, depending on material, size, and finish.

Factors Affecting Cable Tray Costs

Material: Cable trays are commonly made from galvanised steel, stainless steel, or aluminium. Stainless steel and powder-coated trays are more expensive due to corrosion resistance and durability, while aluminium is lighter but moderately priced. Size and Dimensions: Widths range from 50 mm to 600 mm and heights from 50 mm to 60 mm.

Larger trays or custom dimensions increase the cost. Surface Treatment: Options include galvanised, hot-dip galvanised, or powder-coated finishes. Powder coating or stainless steel finishes add to the price due to enhanced longevity and aesthetics.

Accessories and Installation: Bends, couplers, brackets, and support struts are additional costs. Complex installations with multiple fittings or supports can significantly increase the total project cost. Supplier and Brand: Prices vary between manufacturers and distributors.

Leading Slovenian suppliers like Bevec d.o.o. and Elba d.o.o. offer high-quality trays with advanced manufacturing processes, which may be priced higher but ensure durability and compliance with standards.

Typical Price Range

Basic galvanised steel trays: €15–€30 per meterPowder-coated or stainless steel trays: €40–€80 per meterCustom or large-dimension trays: Prices can exceed €100 per meter depending on specifications and complexity. For precise pricing, it is recommended to contact local suppliers directly, as costs can vary based on order volume, delivery, and specific project requirements. Suppliers often provide quotes including accessories and installation support, which helps in budgeting accurately.
