State Grid Distribution Automation High and Low Voltage Complete Sets of Equipment

Overview

This solution covers a complete set of power equipment from low-voltage distribution cabinets, high-voltage switchgear to transformers, automation control systems, etc., aiming to provide comprehensive and customized power solutions for various users. Our high and low voltage complete electrical equipment solutions are designed based on a deep understanding of the current development trends in the power industry and accurate predictions of future power demand. Ensure an efficient, stable, secure and sustainable power supply and. From primary equipment to control centers, Hitachi Energy's comprehensive portfolio of distribution automation solutions enables utilities to see what is happening inside the distribution grid, ensuring efficient, reliable and uninterrupted operation, anywhere, anytime. To achieve structural adjustment and transformation in the power industry, the foremost priority is enhancing the performance of. ABB Electrification Digital Systems deliver pre-configured and completely engineered grid automation indoor and outdoor cabinets, comprising of constituent products such as Relion REC615 advanced protection and control, hardwired IO unit RIO600, Arctic ARx600 wireless gateways, third party RTUs.
