UAE Large Span Cable Tray Manufacturer

Overview

Cable Tray Manufacturers in Dubai, Abu Dhabi, Unigroup Cable Trays, Channels and Trunking Solutions are proudly manufactured in the UAE to the highest inte.

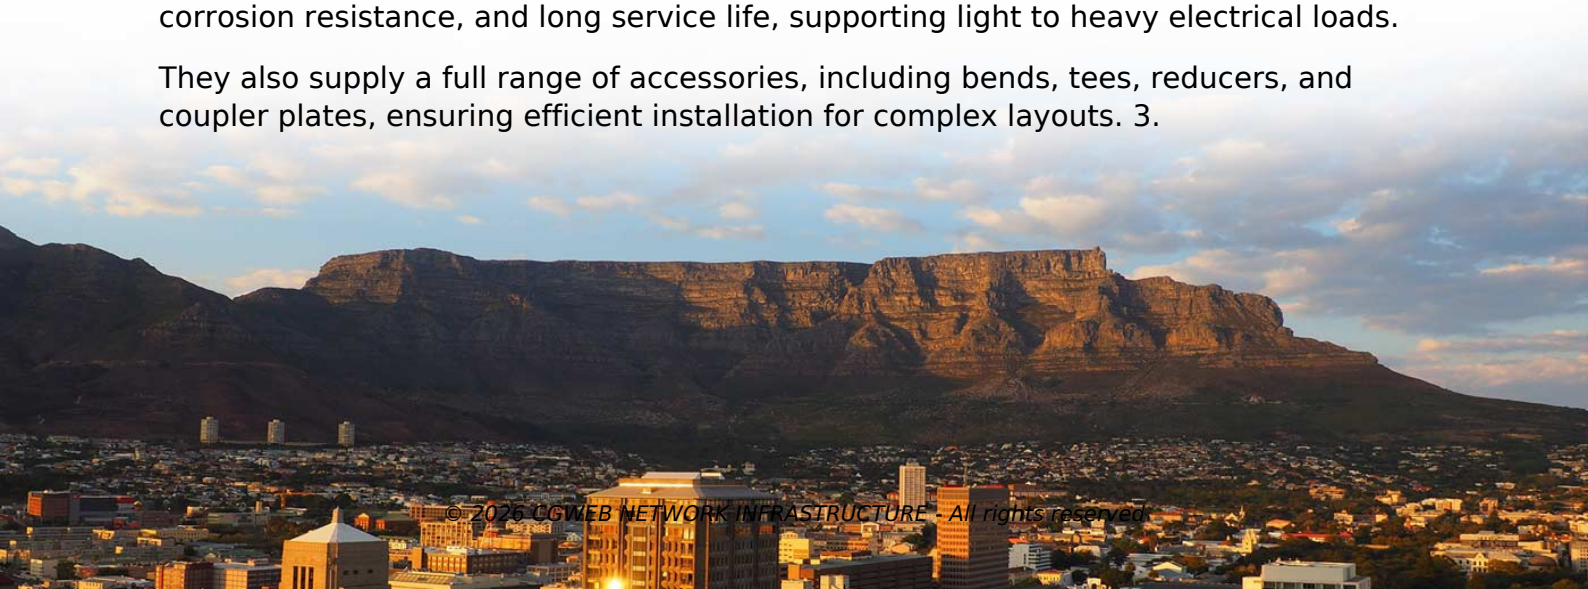

Key Takeaways

Top UAE manufacturers of long-span cable trays include Unigroup, Metar, BonnGulf, and Hutaib Electricals, offering durable, customizable, and high-load cable management solutions. Leading Manufacturers1. Unigroup Unigroup manufactures a wide range of cable trays, trunking, and channel systems in the UAE, engineered for commercial, industrial, and utility applications.

Their offerings include perforated trays, ladder trays, wire mesh trays, and GRP cable management systems. These trays are designed for high corrosion and fire resistance, ease of installation, and long-term reliability, making them suitable for large-span installations and heavy-duty applications in harsh environments. 2.

Metar Metar is a Dubai-based manufacturer specializing in steel cable trays for commercial, industrial, and infrastructure projects. They provide mild steel, pre-galvanized, hot-dip galvanized (HDG), and powder-coated finishes, with custom sizes, thicknesses, and load ratings. Metar trays are engineered for structural strength, corrosion resistance, and long service life, supporting light to heavy electrical loads.

They also supply a full range of accessories, including bends, tees, reducers, and coupler plates, ensuring efficient installation for complex layouts. 3.

Bonn

Gulf Bonn

Gulf offers a comprehensive range of cable management systems, including ladder trays, perforated trays, trunking trays, and GI trays. Their products are ISO 9001: 2008 certified and designed for industrial and construction environments, capable of handling light, medium, and heavy loads.

Bonn

Gulf emphasizes durability, flexibility, and ease of installation, making their long-span cable trays suitable for large-scale projects across the UAE. 4. Hutaib Electricals Hutaib Electricals provides a variety of cable trays, including wire mesh, channel, box-type, and raceway trays, with finishes such as GI, hot-dip, pre-galvanized, powder-coated, and stainless steel (SS 202/304/316).

They focus on efficient cable management solutions for industrial and commercial projects, offering prompt delivery and project-specific customization for long-span installations.

Key Considerations for Long-

Span Cable Trays

Material and Finish: Steel (mild, pre-galvanized, HDG), GRP, or stainless steel for corrosion resistance. Load Capacity: Ensure trays are rated for the intended electrical load and span length. Customization: Width, side rail height, thickness, and accessories for bends, tees, and supports.

Compliance: ISO standards and UAE-specific construction requirements. Installation and Maintenance: Ease of installation, structural stability, and low maintenance for long-term reliability. These manufacturers provide locally produced, high-quality cable trays suitable for large-scale and long-span applications, ensuring compliance with international standards and UAE environmental conditions.
